

Company

Family-run partner to industry for more than 50 years

For us at AZ, the corporate motto, “Partner the highest demands”, is not just an empty phrase. Right from the start, giving competent advice and solving technical challenges in industrial plant engineering have formed the foundation of the company’s culture. We can only meet the challenges of the new projects in collaboration with our customers. Global growth, customer-oriented product innovation, the use of new materials and innovative production processes have been our recipe for success for more than 50 years. The AZ Group produces in five plants and one foundry. Worldwide AZ employs around 500 people in its various plants, foundries and service locations.

AZ Plants

The AZ group produces in plants on four continents. Find your nearest AZ location [here](#).
