

Type NUCLEAR

Plug valves for nuclear facilities

- nuclear approval
- complete chain of documentation for all parts
- individual acceptance tests

NPS ½ - 20 / Class 150 - 900

Range of application:

-76 < T < 446°F / 608°F

vacuum-capable

Design characteristics

- forged steel
- high-pressure design
- In-line sleeve replacement possible
- free of cavities
- maintenance-free, self-lubricating
- adjustable safety stem packing
- Fire-Safe - API 607 / ISO 10497

Options

- painting
- special materials
